

8. (Amended) Image recording apparatus according to claim 1 including means for deleting said first image in the event that said detecting means does not detect presence of said vehicle or object beyond said location.

9. (Amended) Image recording apparatus according to claim 1 wherein said first image shows at least the position of said vehicle or object relative to said location.

10. (Amended) Image recording apparatus according to claim 1 wherein said detecting means includes an inductive loop set below a road surface.

21
could.
11. (Amended) Image recording apparatus according to claim 1 wherein said location includes a stop line marked on a roadway.

12. (Amended) Image recording apparatus according to claim 1 wherein said first image includes a wide angle image.

13. (Amended) Image recording apparatus according to claim 1 wherein said first image includes an approach to an intersection of two or more roads.

17. (Amended) A method according to claim 14 wherein said change in status includes a traffic light signal changing to a red light.

18. (Amended) A method according to claim 14 wherein said step of capturing is performed with a digital camera.

19. (Amended) A method according to claim 14 wherein said first image is stored in volatile memory such as RAM.

20. (Amended) A method according to claim 14 wherein said first image is recorded onto WORM type media.

21. (Amended) A method according to claim 14 including the step of deleting said first image in the event that said detecting means does not detect presence of said vehicle or object beyond said location.

22. (Amended) A method according to claim 14 wherein said first image shows at least the position of said vehicle or object relative to said location.

23. (Amended) A method according to claim 14 wherein said detecting is performed with an inductive loop set below a road surface.

24. (Amended) A method according to claim 14 wherein said location include a stop line marked on a roadway.

25. (Amended) A method according to claim 14 wherein said first image includes a wide angle image.

26. (Amended) A method according to claim 14 wherein said first image includes an approach to an intersection of two or more roads.

Please cancel claims 27 and 28.

REMARKS

The above-referenced application is amended to delete the multiple dependencies of claims 4 to 13 and 17 to 26 and to conform with U.S. Patent practices.

Attached hereto is a marked-up version of the changes made to the claims by the current amendment. The attached pages are captioned "Marked-Up Version Showing Changes".

Respectfully submitted,
